

**Position Number: 1013CA**

---

Name	Charlotte Alexander
Number of Positions Requested	TBD
Appointment Term	Spring 2018
Type of Position	Faculty Research
Description of Position	GRAs will assist Prof. Alexander with employment law related empirical research projects including one that explores using text mining and machine learning to examine judges' misclassification decisions (deciding whether a worker is properly an employee or independent contractor), and another that investigates the reasons for the dramatic boom in Fair Labor Standards Act cases (minimum wage and overtime cases).
Preferred Skills/Background (e.g., class prerequisites, class standing, statistical skills etc.)	No prior work with data or quantitative skills required, though such experience is a bonus. Familiarity with civil litigation/ civil procedure and employment law is a plus, but not required. Attention to detail, diligence, and commitment to the timely delivery of tasks are REQUIRED. Student must have the time in his/her schedule to devote the agreed-upon number of hours to this work and deliver results by deadlines.
Other relevant information (required schedule, form of submissions etc.)	If interested, please email a CV and brief statement of qualifications and interest to Prof. Alexander.
Method of Contact	calexander@gsu.edu
